## THE COMPANY

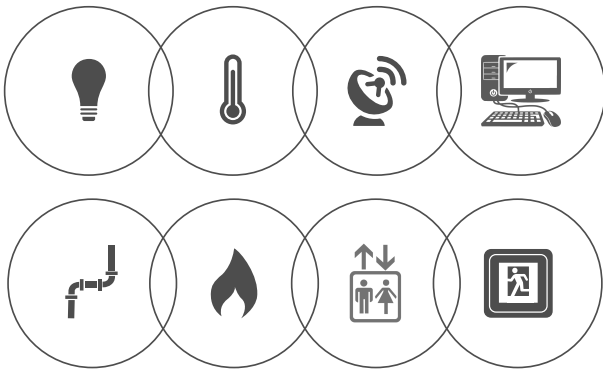

**LP&SC** has a vast curriculum in the field of engineering projects and complementary services. We serve both domestic as well international set of customers, ranging from sectors such as Retail to IT&Telco.

Was founded in 2012 by a set of senior engineering professionals with a wide range of skill-sets and since then, has been focused on high value consultancy, design and engineering projects.

Our references and projects are characterized by standards of high quality, on schedule and on-costs, while complying with legal and regulatory requirements, including, functionality, safety, comfort, health, aesthetics, planning and environment.

Our customers can testify the impact we have demonstrated along these years, contributing to a successful and long-term partnership in the market.
